## ENGINE

- 1,494 cc four-stroke, ..... 1503 NA Rotax 4-TEC engine provides reliable performance in fresh or salt water, increased torque at low RPM, optimized power at all RPM levels and throttle positions.
- Rotax with four valves per cylinder
- iTC (Intelligent Throttle Control)... Operating electronically, this advanced throttle system starts you in neutral for easier dockside starts. It also features an activity-specific cruise control, Touring / Sport mode and ECO mode that can all be set to accommodate your riding style. The result is a more responsive, more intuitive ride.
- iControl Learning Key® ..... The programmable Learning Key allows you to limit the performance of the PWC based on rider skill-level.
- D-Sea-Bel™ system..... Combines a series of resonators and vibration-absorbing components to make Sea-Doo watercraft some of the quietest on the water.
- Multi-port fuel injection..... Better control of exhaust emission and power at all RPM ranges to reduce emissions and reduce fuel consumption.
- Closed-Loop Cooling System..... Uses coolant to keep the engine running at the ideal temperature, much like a car's radiator. Also keeps out corrosive saltwater and debris.
- Water/air separator ..... Provides maximum airflow to engine and reduces water intrusion.
- Watertight digital ignition..... Provides optimal energy for a consistent spark, ensuring maximum performance.
- RPM limiter..... Protects engine from over-revving.
- Warning device..... Warns operator of engine and exhaust overheating, engine management and system failure.
- Handlebar-mounted..... Engine starts and stops with single, start/stop button
- Tip Over Protection..... Protects engine in case of turn over.
- System (T.O.P.S.™)
